

GEOxyz – Chief Surveyor (Offshore)

In search of a Chief Surveyor (Offshore)

The Chief Surveyor plays a central role within our survey department, focusing on the supervision and maintenance of the highest survey standards in offshore environments.

- You will have a balanced mix of fieldwork and office-based duties (70% officework/30% fieldwork)
- You deliver comprehensive support/training to Party Chiefs and Online Surveyors.
- You provide ongoing guidance and supervision to survey team members in offshore operations.
- You oversee the planning and execution of offshore survey mobilizations.
- You coordinate equipment setup and make sure the team is strategically equipped for maximum effectiveness.
- You collaborate with other departments to optimize resource allocation and operational efficiency.
- You ensure that all surveying operations adhere to industry best practices and comply with QHSSE policies and procedures.
- You provide technical support to survey teams.
- You assist with resolving complex challenges and troubleshooting.
- You optimize and standardize vessel setups and configurations.
- You maintain accurate and up-to-date documentation related to survey operations.
- You share the latest information, guidelines and resources with the survey team.
- You share valuable insights and stay informed about the latest developments.
- You provide suggestions for process improvements and technological advancements to enhance our surveying capabilities.

What do we expect from you?

- You have 10 years of survey experience and you spent a couple years on board.
- You obtained a degree in a survey related field.
- You speak and write fluently English.
- You can work well in a team.

What do we offer you?

- A challenging job in a fast-growing environment.
- A good working climate within a young dynamic team.
- A competitive salary
- The chance to actively grow within our organization
- You will work with the newest high-tech equipment on various projects.
