

GEOxyz – Geophysicist

In search of a Geophysicist

As Geophysicist can work on board of our vessels, in the office or in our field offices. You control quality and interpret geophysical data and to process raw data into final products for the client.

Main tasks of the geophysicist are:

- You conduct quality control of survey data and check data for completeness.
- You undertake processing according to company procedures.
- You interpret geophysical data.
- You monitor working methods and suggest improvements where applicable.
- You assist with writing project reports and optimize the data quality.
- You will work on board or in one of our (field) offices.
- On board you report to the party chief and/or QC coordinator on project level.

What do we expect from you?

- You obtained a bachelor degree in geology or geophysics or have relevant experience.
- You have both good written and spoken English skills.
- You possess a good knowledge of MS Office.
- You are organized, customer focused, methodical and you have attention for detail.

What do we offer you?

- A challenging job in a fast-growing environment.
- A good working climate within a young dynamic team.
- A competitive salary
- The chance to actively grow within our organization
- You will work with the newest high-tech equipment on various projects and locations
