

GEOxyz – Geotech Lab Technician

In search of a Geotech Lab Technician

As **Geotech Lab Technician** your focus will be on preparing, testing and analyzing soil and rock samples to support our geotechnical and offshore site investigation projects. You will be part of a motivated team that ensures high-quality results for our clients and contributes to the success of challenging marine and offshore projects.

As Geotech Lab Technician your tasks will consist of:

- Receiving, preparing and classifying soil and/or rock samples
- Performing geotechnical laboratory tests (index testing, strength testing, compressibility, etc.)
- Assisting with the processing of field samples and documentation
- Ensuring quality, accuracy and traceability of results
- Supporting geotechnical engineers with reporting and interpretation
- Maintaining laboratory equipment and ensuring compliance with HSE standards

What do we expect from you?

- You have obtained a bachelor's degree in geology, geotechnics, earth sciences or similar (or equivalent technical experience)
- You have a strong interest in geotechnical laboratory testing and analysis
- Experience in a laboratory environment is a plus
- You are accurate, well-organized and have a hands-on mentality
- You are fluent in English, both spoken and written
- You work structured and have good administrative skills
- You can work fluently with Microsoft 365

What do we offer you?

- A stimulating role in a fast-growing organization.
- A pleasant and dynamic working atmosphere within a young team.
- Opportunities for growth and personal development within our company.
- The chance to work on diverse projects using the latest high-tech equipment.
