

# GEOxyz – Hydrographic Surveyor France

## In search of Hydrographic Surveyor France

As a Hydrographic Surveyor , you will be responsible for carrying out hydrographic surveys to collect data of the seabed. Your main tasks include:

- Preparation and planning of hydrographic surveys.
- Installation of equipment, such as multibeam, single-beam, sidescan, sediment sounders,...
- Calibration and verification of hydrographic equipment to ensure qualitative and reliable data collection.
- Data collection, daily field reports, analysis and interpretation of data to create charts, plans and technical reports.
- Assisting colleagues on ongoing operations.
- Planning and executing surveys safely and efficiently.
- Advising on geophysical- and hydrographic matters to ensure quality and accuracy of data.
- Ensuring that the safety procedures are known and followed to maintain a safe working environment.

## What do we expect from you?

- You obtained a degree in hydrography or geology.
- You had a first, relevant working experience.
- You can process and interpret data.
- You have developed knowledge and skills in survey methods and equipment.
- You obtained a driver's licence (B96 or BE is a plus).
- You can work in a team and are flexible.
- You speak and write fluently French and English.
- If you have a STCW95 Basic Safety Training certificate, that is a plus.

## What do we offer you?

- A challenging job in a fast-growing environment.
- A good working climate within a young dynamic team.
- A competitive salary
- The chance to actively grow within our organization
- You will work with the newest high-tech equipment on various projects and locations
