

GEOxyz – Hydrographic Surveyor

In search of a Hydrographic Surveyor

We are looking for a Hydrographic Surveyor to join our team. As a Hydrographic Surveyor, you will be responsible for conducting surveys of the seabed to gather data on its features and topography. This is an excellent opportunity for an experienced and motivated individual who is passionate about the ocean and the environment.

Responsibilities:

- Preparation and planning of surveys to gather data on the features and topography of the seabed.
- Installation of modern survey equipment, including multibeam echosounders, side-scan sonars, and sub-bottom profilers.
- Calibration and verification of survey equipment to ensure accurate and reliable data collection.
- Data collection and daily field reporting, including the use of various survey equipment to collect data on the seabed.
- Processing and provisional final field reporting, including analyzing and interpreting survey data to produce charts, maps, and reports.
- Providing support for other ongoing operations, including collaborating with other team members to plan and execute surveys safely and efficiently.
- Giving advice or instructions on geophysical/hydrographic matters to ensure the quality and accuracy of survey data.
- Ensuring vessel safety procedures are known and followed to maintain a safe work environment.
- Ensuring that all operations are carried out in a safe manner, in compliance with relevant regulations and standards.

What do we expect from you?

- You have a bachelor's degree in survey related discipline, hydrography and geology
- You had a first experience in surveying for national charting purposes
- You have knowledge & skills for data processing and interpretation of relevant data and good knowledge & skills of modern survey methods and equipment
- You received basic safety training (STCW95 is a plus)
- You have a driving licence
- You have a positive team spirit
- You have a methodical way of thinking and are flexible with excellent attention to details

What do we offer you?

- We are offering an exciting opportunity for a challenging job in a rapidly expanding environment. Not only

will you be part of a young, dynamic team, but you will also enjoy a good working climate that fosters growth and development.

- We offer a competitive salary that reflects your skills and experience, as well as the chance to actively grow within our organization.
- You will have the opportunity to work on various projects and locations
- The opportunity to work with the newest high-tech equipment available in the industry. This exposure to diverse projects and locations will provide you with a wealth of experience and expertise that will help you grow and develop professionally
- We are committed to let you grow within your role as well as with the company
