

GEOxyz – QHSE Officer

In search of a QHSE Officer

As a **QHSE Officer** at **GEOxyz**, you play a crucial role in ensuring the safety, quality, health, environmental, and information security aspects of our projects. Together with the project teams, you help create and maintain a safe working environment for our employees. In the event of incidents, such as collisions, blackouts, or equipment loss, you take the lead in resolving the situation and implement preventive measures to avoid recurrence.

You will oversee projects from start to finish, working closely with the **Project Manager** and **Party Chief**. You will also report weekly on incident follow-up to our high-level clients.

Main responsibilities:

- Conduct analyses and support the development of QHSE project plans.
- Perform audits related to safety, quality, environmental, and information security aspects.
- Support the tender department with QHSE-related input for potential clients.
- Serve as the primary contact for the client regarding all QHSE matters.
- Ensure the delivery of QHSE-related project deliverables to the client.
- Implement the GEOxyz QHSE policies at project level.
- Support the execution of the project QHSE management plan.
- Organize and report on toolboxes and awareness campaigns at project level.
- Ensure compliance with **ISO 9001, ISO 14001, ISO 27001, ISO 45001** and the **Safety Culture Ladder** in project processes.
- Follow up on safety observations and incidents at project level.
- Conduct workplace inspections and report findings using the GEOxyz reporting tool.
- Support project management during client audits at project sites.
- Conduct subcontractor audits.
- Contribute to the implementation and continuous improvement of **ISO 27001**, with knowledge of or interest in clauses **4 to 10** considered a strong asset.

What do we expect from you?

- You have a bachelor's or master's degree, preferably in safety, quality, maritime studies, or a related field.
- You have experience in structured project management.
- Experience in quality and safety..
- Experience with ISO standards is a plus.
- Experience with **ISO 27001**, especially clauses **4 to 10**, is considered an asset; a strong willingness to learn and develop in this area is equally valued.
- You have a strong interest in the maritime sector and are willing to travel **4-5 times per year within**

Europe.

- You have excellent communication skills in both **Dutch and English**, written and spoken.
- You are solution-oriented, stress-resistant, and have a keen eye for detail.

What do we offer you?

- A challenging job in a fast-growing environment.
- A good working climate within a young dynamic team.
- The chance to actively grow within our organization.
- Working in an international company with the possibility to grow.
