

GEOxyz – Survey Engineer - Workplace HQ

Looking for a Survey Engineer for our headquarters

- Project preparation on equipment level, based on input from Projects Management and Project Surveyors.
- Plan, order, organize & manage preparations (equipment, logistics, administration,...) to minimize downtime on projects.
- Be part of the technical vessel support in conjunction with survey support department.
- Technical support and/or interventions during execution phase of the projects in combination with mobilization engineers. Assist the mobilization engineer on practical things when needed
- Assist with survey equipment calibration, maintenance, repair, and inventory management.
- Report, give feedback and propose improvements to Workplace Manager/ Equipment and Logistics Manager.

What do we expect from you?

- Basic understanding of surveying principles and familiarity with survey instruments is a plus.
- Good computer skills
- Good mathematical and analytical skills.
- Strong attention to detail.
- Effective communication and teamwork skills.
- Ability to work outdoors in varying environmental conditions.
- Willingness to travel and work on project sites when required.
- Positive attitude and eagerness to learn.
- Problem-solving mindset.
- Ability to work independently and within multidisciplinary teams.
- Good organizational and time-management skills.
- Working 5 days in the office in Zwevegem with exceptional travel to project location (BE)
- Recent graduates or candidates with limited professional experience are encouraged to apply.

What do we offer?

- A challenging job in a fast-growing environment
- A good working climate within a young dynamic team
- A Competitive salary
- The chance to actively grow within our organization
