

GEOxyz – Technical Buyer

In search of a Technical Buyer

As a Technical Buyer your key responsibilities are:

- Source, evaluate, and procure technical equipment, components, and services for projects and assets (e.g., spare parts and consumables for marine assets, survey equipment, IT equipment, ...).
- Review technical specifications and collaborate with other departments to ensure procurement meets requirements.
- Negotiate pricing, delivery schedules, and contractual terms with suppliers and subcontractors.
- Coordinate with logistics teams to manage transportation and delivery of materials offshore or other locations.
- Monitor market trends, identify potential risks in the supply chain, and recommend improvements.
- Ensure all procurement activities align with company goals and regulatory requirements.
- Manage supplier relationships, monitor performance, and ensure compliance with QHSSE standards.

What do we expect from you?

- You obtained a degree in Engineering, Supply Chain or a related field.
- You have a minimum of 3 years relevant work experience.
- You are technically proficient to interpret drawings, specifications and scopes of work.
- You are fluent in English, both written and spoken.
- You have excellent organizational, communication and teamwork skills.
- It is a plus if you have knowledge of offshore logistics and operations.

What do we offer you?

- A challenging job in a fast-growing environment.
- A good working climate within a young dynamic team.
- A competitive salary.
- The chance to actively grow within our organization.
